

West Pharmaceutical Services, Inc. does not conduct animal testing. At times, regulatory, compendia and safety standards require us to utilize animals in the testing of our products. When animal testing must be undertaken to comply with these requirements, West contracts with a third-party provider of such testing services. This provider is certified by the American Association for Accreditation of Laboratory Animal Care (AAALAC) or an equivalent organization and committed to the humane treatment of laboratory animals, the responsible use of animals in medical research and the use of alternatives to animal testing whenever possible.
