*"I like that it's very little fine finger manipulations.
All simple, easy to hold, easy to administer."*

RA patient

Off the Shelf

- Extremely short time to market
- Existing production capacity available
- Limited additional capital investment needed
- Capability for secondary assembly and drug handling
- In-house regulatory and analytical lab support

Commercially Ready Platform

- Accommodates an ISO 1mL long glass syringe
- Injector design can be used for multiple biosimilar drugs irrespective of therapy
- Compatible with various fill volumes and viscosities

Patient Friendly

- Differentiated and ergonomic design to overcome dexterity challenges
- Highly intuitive proven by Human Factor studies
- Hidden needle helps reduce fear and prevent needlestick injury
- Reliable system for dose reassurance
- Quiet and user controlled to reduce pain
