

Fill-Finish Case Study

Product

- Small Scale Fill-Finish
- On-Body Delivery System Device Verification Testing (DVT)

Issue

- Concept filling needed to understand DVT feasibility
- Performance data needed prior to scaling up filling at CMO
- Need fast turn around and reasonable cost with good quality

Resolution

- Developed and optimized filling methods with internal West subject matter experts
- Multi-site collaboration with customer
- Team established to focus on filling, finishing and in-process checks
- Met customer timing for DVT milestones
